Any tips for making the most of a small space? "Break rules. Be flexible. Mix things up. Our dining and living area was inspired by camper vans. Combining the sofa and dining table not only saves space, but also feels really comfy and casual. We love hanging out here, and so do our friends."

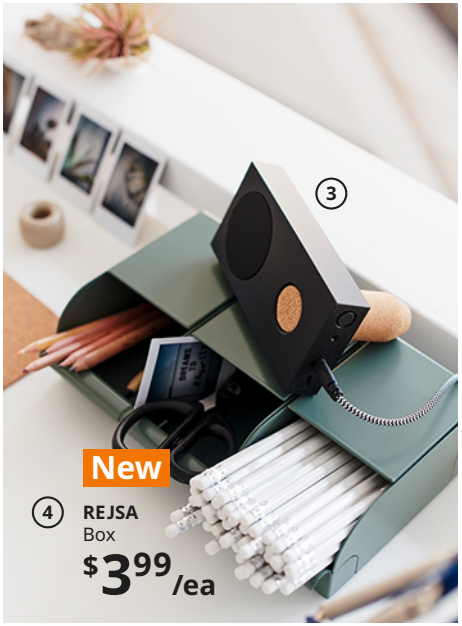

A few extra visitors? No problemo. These stackable stools also make great side tables.

Turn the bed 180°, and the headboard becomes a room divider. Smart!

Would a sleeper sofa have been the typical choice for this small space? Yes. Did these parents follow their dream of a full size bed anyway? Also yes. It really shows that there are no rules when it comes to home furnishing. Well, maybe two: do what feels right for you — and have fun!

Step 1: Plan. We wanted our home to feel warm and welcoming, but what that looked like? No idea! So, we started collecting examples of colors and textures we loved, which helped narrow it down to rich, earthy tones and natural materials.

Bamboo, all the way! It's a beautiful, renewable material with a light and natural look.

Step 2: Furnish. A lot of the furniture is from our previous apartment. The add-ons were mostly ornaments and accessories, plus a few other items to make the space more flexible. Take the coffee tables, for instance. If baby needs space to play, we just pick them up and push them aside.

Step 4: Prioritize. Living small has taught us one valuable lesson — that if it really matters, you can make space for it. Case in point, our dining room table. An eight-seater felt like a splurge at first, but with friends and family over so often, its size has served us well.

This lamp shade is made with bits of bamboo that would have otherwise been thrown away, giving each one a unique pattern.

Step 5: Think long term. Phew! The rush to get the nursery ready in time was real... but we made it. The idea for this space was simple: calm and gender-neutral, with furniture that can either grow up with baby, be reused for baby #2 or move elsewhere in the house later on.

Yay for a changing table that can become a chest of drawers. Either way, make sure it's secured to the wall for little one's safety.

Behind the sofa: a very underrated (and often overlooked) spot for extra storage space.

Make that TV screen a little easier on the eyes by surrounding it with a few of your favorite framed pictures.

Top of the class

It's a new school year. Two parents, plus three kids, multiplied by more carpool pickups, soccer games, play dates and school night dinners than you can imagine. Enjoying it all calls for next-level organization, of their schedules as well as their stuff. Which is why we can all learn a lesson from their inviting family home: scoring an A++ for storage, and doing it in style.

Keep the kitchen's cabinet chaos in check, with these handwoven baskets made from banana leaf and rattan.

Shallow enough for tight spaces; big enough to hold shoes, hats, handbags, hairdryers...

It's got the peace, it's got the quiet, it's got the lighting. For AM makeup or PM emails, this corner is tough to beat.

This couple works hard at their jobs and in their community, and just as hard for their kids. After long days helping with homework, pitching softballs, cooking dinner or doing (yet another) load of laundry, a great night's sleep is most definitely deserved.

From empty, underbed space to an overachieving study corner.

Take the “should I wash this?” test

A lot of water and energy goes into a load of laundry, so here are four simple questions to ask before you throw something in the wash. The earth, and your clothes, will be better off for it:
– Could I wear this again?
– Could spot cleaning do the job?
– Is the washing machine full?
– Is the temperature set correctly?

Sure, sure, it's where they sort their recycling and park the car and bikes, but it also (unintentionally) becomes the parking lot for everything they don't want to bring inside, or don't know where to put. And the pile grows. And grows. Isn't it time to treat that collection of bike gear, holiday decorations and gardening tools to a new, neat home? Welcome to possibly the most satisfying weekend project ever.

Bite-sized & brilliant

She loves technology. She loves photography. But her truest love of all? Food, glorious food. Cooking it. Eating it. Sharing it. Her compact apartment is where all three passions meet: a home-meets-side-hustle hub that takes both definitions of “studio” in its stride. In this flexible space, amazing (and delicious) things happen at any time of day or night. Feast your eyes!

The power of textiles

If you’re furnishing on a budget, fabric is your friend. Here, this wallet-friendly material takes many forms; like a DIY “backdrop” made from fabric by the yard, makeshift wardrobe doors and the upholstered bed itself. Combined, you get a softer, more romantic look — and even reduced noise for a sounder night’s sleep.

For long-lasting good looks that will see you through many seasons, light and neutral bedlinen is hard to beat.

Rugs can last a lifetime with good care. If you want to start off resourcefully too, here's one made from recycled cotton.

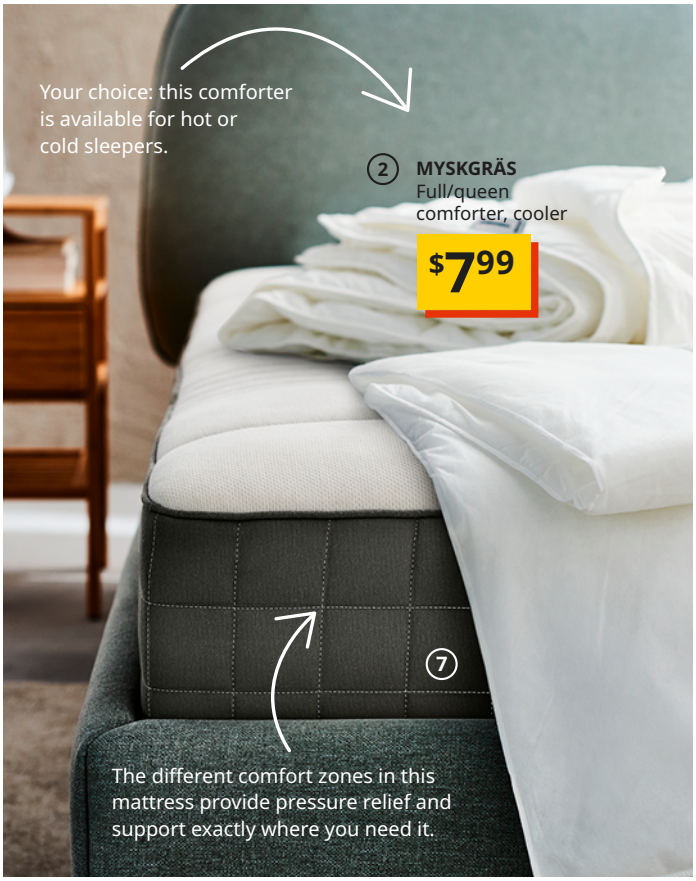

A consciously chosen bedroom

It's not always easy to shop with sustainability in mind. But if you are planning on a needed room re-do, we have products that are made with materials and processes that are more planet-friendly. And, as always, at the best price possible. The choice is yours!

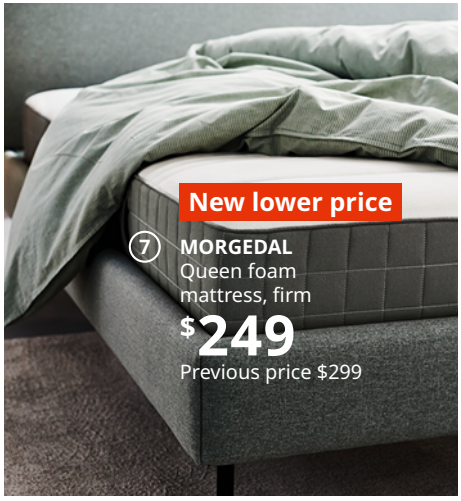

Be a little selfish about your sleep

We all sleep differently. Some are more comfortable in a firm bed, others want a soft one. Some are always warm, others never warm enough. Regardless of where you stand — or actually, lie — there's a comfortable solution for you.

Eight ways to keep track of the small things

Small but important things like chargers, glasses and headphones tend to disappear. Maybe they are joining forces with the socks that always go missing? Here are eight ideas to keep them from making a getaway.

Drawer inserts were born for sorting out your “stuff” drawers. This one’s got enough compartments for almost anything!

Technically, it's a plate holder. In real life, it's an I'm-happy-to-hold-whatever-you-need-me-to-hold holder.

Fit it all in perfectly with PAX

There's a PAX wardrobe out there that suits you, whatever your style — and whatever your stuff. By combining PAX units with KOMPLEMENT inserts, it's simple to tailor your storage to fit your needs. Need extra rods to keep shirts crisp? Easy. More pairs of shoes than strictly necessary? Don't worry, they're covered.

A mirrored door saves wall space for other things, such as hooks and rods (or a framed photo of your poodle!)

Some people love putting stuff together, others love a helping hand. If you want to, we're more than happy to arrange quick and affordable assembly service. See p. 280 for details.

Curtain challenges, solved!

We've heard it said that a room isn't finished until the windows are dressed. Don't let yours go naked! Aside from looking good, curtains can help you control light, sound, temperature and privacy.

Use iron-on hemming tape to easily add a color block of contrasting fabric to the bottom of too-short curtains.

Wall-to-wall curtains create a cozy cocoon and can hide extra storage.

Three basics of better lighting

Sometimes you walk into a room that just “feels” great, complete and welcoming. One reason why might surprise you: multiple sources of light. This helps the room work better for you but also helps to move your eye around the space, making it pleasant to be in.

Functional lighting

The lamp with a mission. This concentrated, direct light helps you focus on specific tasks like reading, working or cooking.

Mood lighting

The lamp that wants you to feel cozy. A good example is integrated lighting — lights in the cabinet showcase your favorite things while creating a warm atmosphere.

General lighting

The lamp that sees everything. Ceiling lamps and spotlights give a good overview of the entire room. And, as with all the lamps, it's extra nice when they are dimmable, so you can always get the mood that feels right.

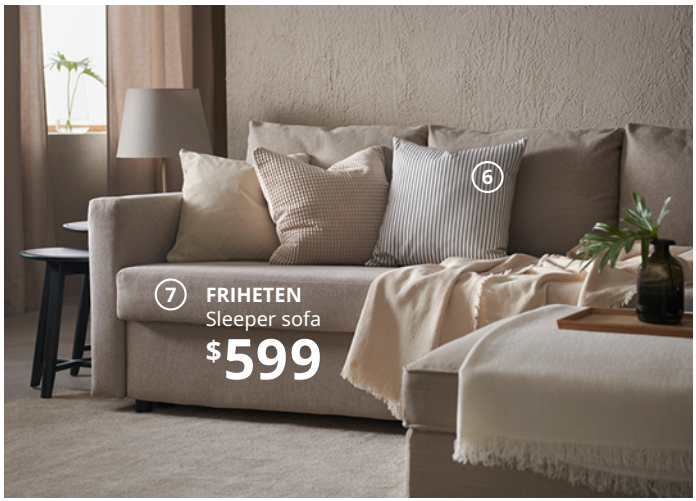

4 **TRÅDFRI**
Remote control kit

Secrets to a beautifully balanced room

Want a living room full of rich colors and details that still looks put together? The key is a mix of courage and cohesion: don't be afraid to be bold but keep it all in balance with a few tried-and-true design guidelines.

Different patterns but similar colors. Sticking to a palette is a secret to successful mixing and matching.

Aim to balance visual weights of groups of things, too. Here, thin frames and a slim lamp balance the heavier sideboard.

Living room by day, bedroom by night. But what makes this undercover sleep solution a real catch is the built-in bedding storage below. You’re welcome!

Small space problem solvers

Small homes are wonderful — compact and cozy — but not without their challenges. We've got lots of problem solvers in our range designed with small spaces in mind: multipurpose furniture, wall storage solutions and items that are easy to stack or move around.

Storage stars

This flexible toy storage on wheels ups your organization: you can collect, move and store your child's things in one piece. Another superhero: smaller-scale closed cabinets help keep the sofa area under control.

Stack and store

Stackable chairs are super handy when you only need extra seats now and then. Also smart for small spaces: storing everyday dishes next to the table, freeing up kitchen cabinet real estate.

Multipurpose matters

In a small room, double-duty furniture is your best friend. NYHAMN transforms from a sofa to a bed in a simple click; no need to remove the cover. Plus, it has plenty of space under the seat for storage.

The UPPLAND sofa is a timeless design, making it easy to live with and love for many years. And, if you ever want a new look, you can change the covers!

A look you'll love for a long time

How to create a timeless design? We suggest a coordinated palette of dark wood, gray and white, dining furniture in traditional shapes and upholstered pieces that are as comfortable as they are classic.

Comfy and practical: an upholstered armchair that can also be used at the dining table when guests come over.

A table and chairs in the same classic style keeps the look consistent; adding chair pads makes it extra comfortable.

Five ways to dine your way

Solo dinners in a favorite chair, lively gatherings with friends, toys at tea parties and romantic dinners for two. There are no rules, so just follow your heart (and your stomach) to set up a dining area that's just right for you.

If you have limited space, bar stools and tables are wonderful options. As a guideline, the seat height should be about 12" lower than the tabletop.

Sometimes, the perfect spot for dinner is in front of the TV. This tray table easily folds up to tuck away between movie marathons.

This little “cafe” encourages role playing — a fun way for kids to process impressions, develop social skills and understand the world around them.

There’s always something to celebrate

Of course there are the big things: birthdays, anniversaries, a new job. But don’t forget the tiny everyday victories: a finished project, the sun shining, the people you love, Fridays! Cheers to the small things that make life a party!

We’re celebrating differently, but that doesn’t mean you shouldn’t do it in style. Order online and get your party supplies delivered. See IKEA-USA.com/services for details.

Make more space for mingling by hanging these chairs on the wall until needed.

A classic champagne coupe is not just for drinks, it's fun for serving desserts, too.

A dream kitchen is all in the details

To complete a classic traditional-style kitchen, the secret is keeping your eye on the details, right down to the tiniest design decisions. We promise it's the way to turn your dream into a reality.

Forms and finishes

For a traditional kitchen, consider handles and knobs with rounded forms in finishes such as chrome or brass.

A sink with style

This distinctive ceramic sink is an instant style boost, enhancing the overall classic design. The faucet also has a matching ceramic detail.

On the table, too

You can round out the look with flatware that has decorative details and porcelain or earthenware plates in neutral colors.

What's for dinner?

Stumped on what to cook? Sometimes — well, most of the time — we just want something easy, balanced and nutritious. A midweek meal can be fast when you start from frozen, and with our plant balls, it'll definitely be delicious, too.

Skip the store tonight
Having frozen meals in the freezer is always handy. But this is not your ordinary frozen meatball: not only are HUVUDROLL plant balls quick to make — they're super tasty, a source of protein and have a lower climate footprint than traditional meatballs.

One-pan wonders

Keep it simple. A one-pan recipe saves time in cooking and cleaning up. Meals don't need to be fancy; what matters most is the time you spend enjoying them. Bon appétit!

The room-reinventing sofa shift

Move your sofa out from the wall and be amazed. The resulting sliver of space can provide three extra functions with the help of flexible furniture, seating and storage. Talk about a renaissance room.

Just swivel me to the right for extra light when working at the hideaway craft table.

A crafting and hobby corner

Move the drawers on wheels to the side, pull down the table and you're ready for an afternoon of origami. When you are done, hide supplies behind the fold-up tabletop to get your clean, organized space back.

Solo workspace to a hangout spot

When it's a desk, shelves above the trusty work table neatly hold all you need to get stuff done. To transform for fun, roll out the table to open up the area, revealing a bench. Just pull up some extra stools for a friend-filled fika or game night.

Limited Warranties

We want you to love the things you buy from us for a long time. Here's what's covered by our limited warranties.

What is limited warrantied?
The extent of the limited warranty given for each product is described alongside each product.

Duration of limited warranty
Each limited warranty lasts for the number of years stated against each product starting from the date of purchase.

What will IKEA do to correct the problem?
IKEA will examine the product and decide if it's covered under this limited warranty. IKEA will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the cost of repairs, spare parts, labor and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorized by IKEA. Any defective parts removed in the course of repair work will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an replacement.

Conditions for the limited warranties
The limited warranties are valid from the date of purchase at IKEA or date of delivery if later. The original purchase receipt is required as proof of purchase.

Exclusions
The limited warranties do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered or cleaned with wrong cleaning methods or wrong cleaning products. The limited warranties do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. The limited warranties do not apply if products have been placed outdoors or in a humid environment or if the products have been used for commercial purposes (unless otherwise stated). The limited warranties do not cover consequential or incidental damages.

For customers in the US only: Some states do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you. For details see the limited warranty conditions and description for every product.

Care instructions
To be able to rely on this limited warranty you need to follow the specific care instructions for every product. You can find all care instructions at the IKEA stores and on the IKEA website: IKEA-USA.com

General legal rights
This limited warranty gives you specific legal rights. It does not, in any way, affect the rights given to you by law.

How to reach us if you need service:
Contact your local IKEA store. You can find the address and phone number at IKEA-USA.com. Save your sales receipt as proof of purchase. Proof of purchase is required for the limited warranties to be valid. To find out more, see IKEA-USA.com/warranty.

PRODUCT LIMITED WARRANTY

• Knobs, handles • KNOXHULT series

• FÖRVARA drawers • UTRUSTA wire baskets • TORNVIKEN, TUTEMO and VADHOLMA open cabinets have a 10-year limited warranty.

Appliances
5-Year Limited Warranty

What is covered under this limited warranty? The limited warranty covers faults of the appliance, which have been caused by faulty construction or material faults from the date of purchase from IKEA. This limited warranty applies to residential use only. The exceptions are specified under the headline "What is not covered under this limited warranty?" Within the limited warranty period, the costs to remedy the fault, e.g. repairs, parts, labor and travel, will be covered, provided that the appliance is accessible for repair without special expenditure. Replaced parts become the property of IKEA.
How long is the limited warranty valid? This limited warranty is valid for five (5) years from the original date of purchase of the IKEA appliance from IKEA. TILLREDA and LAGAN appliances have a two (2) year limited warranty valid from the original date of purchase. If service work is carried out during the limited warranty period, this will not extend the limited warranty period for the appliance, or the new parts.

Which appliances are covered under this limited warranty? The 5-year limited warranty is valid for all IKEA appliances, except for TILLREDA and LAGAN appliances, which have a 2-year limited warranty.

Who will execute the service?
The IKEA service provider will provide the service through its own service operations or authorized service partner network.

What is not covered under this limited warranty? • Normal wear and tear • Deliberate or negligent damage, damage caused by failure to observe operating instructions, incorrect installation or by connection to the wrong voltage, damage caused by chemical or electro-chemical reaction, rust, corrosion or water damage including but not limited to damage caused by excessive lime in the water supply, damage caused by abnormal environmental conditions • Consumable parts including batteries and lamps • Non-functional and decorative parts which do not affect normal use of the appliance, including any scratches and possible color differences • Accidental damage caused by foreign objects or substances and cleaning or unblocking of filters, drainage systems or soap drawers • Damage to the following parts: ceramic glass, accessories, dinnerware and cutlery baskets, feed and drainage pipes, seals, lamps and lamp covers, screens, knobs, casings and parts of casings. Unless such damages can be proved to be due to production faults • Cases where no fault could be found during a technician's visit • Repairs not carried out by our appointed service providers and/or an authorized service contractual partner or where non-original parts have been used • Repairs caused by installation which is faulty or not according to specification • The use of the appliance in a non-residential environment, i.e. professional use • Transportation damages. If a customer transports the product to their home or other address, IKEA is not liable for any damage that may occur during transport. However, in case of IKEA delivery of the product to the customer's delivery address, then eventual damages to the product that occurs during this delivery will be covered by IKEA (but not under this limited warranty). For claims under this last particular condition, the customer should contact IKEA Customer Service at IKEA-USA.com • Cost for carrying out the initial installation of the IKEA appliance. These restrictions do not apply to fault-free work carried out by a qualified specialist using our original parts in order to adapt the appliance to the technical safety specifications of another country.

IKEA 365+ knives
15-Year Limited Warranty, valid for all knives in IKEA 365+ series.

What is covered under this limited warranty?
This limited warranty covers function, materials and workmanship in all knives in the IKEA 365+ knives series. This means that, in normal residential use and provided that our care instructions are followed, the knives will still work as well as they did when they were new, even after 15 years. In this instance, normal use is defined as using (for cutting food) and cleaning the knife by hand once a day and regular sharpening. • Sharpness of the knife. The knife shall be sharp when you buy it and you will be able to keep it sharp so it can function properly, every day. The knife blade is made of a steel that is hardened so that it is possible to sharpen the knife to original sharpness anytime during the warranty period. • Durable handle. The handle of the knife should not crack, break or come loose from the blade so that the knife is not possible to use. • That there will not be any corrosion on the knife blade.
What is not covered under this limited warranty?
This limited warranty does not cover changes in the appearance of the knife unless they have a significant effect on function.

Special Information
This catalog has been prepared by IKEA. Sources of supply and specifications are subject to change. Every reasonable effort will be made to ensure that all advertised merchandise is available in adequate supply. A high standard of accuracy has been sought in the preparation of this catalog. Errors and omissions are always a possibility. Although IKEA cannot be held responsible, upon discovery of any error or omission, all reasonable steps will be taken to inform IKEA customers.

Healthy land, thriving communities

Women from Chhattisgarh India take their harvest to market. Tribal communities in Chhattisgarh depend on land which is increasingly degraded.

We believe farmers have the power to heal the planet while they feed the world.

Farming is one of the world's most important professions, yet the majority of smallholder farmers in East Africa and India are living in poverty. Environmental degradation and the loss of biodiversity are among the root causes.

What if we could transform barren land into rich, fertile ecosystems that support thriving communities?

The IKEA Foundation's partner Commonland is working in Central India to do just that. This exciting program brings communities together to restore a 2,000-hectare degraded landscape. The regenerated land will help 1,000 smallholder farmers create thriving businesses and provide their communities with food, water, clean air and employment.

Rural communities can gain so much more than a place to grow crops. People develop a renewed sense of hope and purpose, they create more jobs, revitalize their environment and earn reliable incomes.

We all depend on agriculture. The IKEA Foundation is committed to helping people grow their way to a more secure future for their families and our planet.
